

WE'RE GETTING STUDENTS CHARGED UP ABOUT THEIR FUTURES
AND SPARKING INTEREST IN CAREER OPPORTUNITIES...
AND YOU'RE INVITED.

DATE: SATURDAY, APRIL 22, 2017
TIME: BATTLES –12:00 PM - 4 PM
LOCATION: FT. ZUMWALT SOUTH HIGH SCHOOL
8050 Mexico Rd, St Peters, MO

- 🔧 **Robots designed and built by St. Louis area students** in a gladiator-style battle to the finish. **This is BotsSTL.** Teams have been working for months to build the fiercest bot in the battle—all the while, learning the critical **STEM skills** in demand in today's workforce. Partnered with industry advisors, these students aren't just building robots. They're building **confidence, problem solving ability and creativity.**
- 🔧 **Manufacturing employs more than 114,000 people** in the St. Louis metro area. Many of the people who hold those jobs are nearing retirement age, and manufacturers **NEED** qualified employees to take their places to meet the needs of the anticipated growth over the next decade. In fact, St. Louis manufacturers are expected to **increase their workforce** by nearly 16 percent, this year alone. Many of these jobs are entry-level positions that offer extremely competitive salaries. What are these employers looking for? **Team players with the knowledge and skills to do the job.**
- 🔧 BotsSTL is project-based learning that encourages **confidence, teamwork, problem solving and creativity** while hitting on every aspect of **STEM education.** The best part: it's backed by the experience and expertise of area manufacturers that partner with the student teams. These are the same manufacturers who know the job market and the skills they themselves are looking for in future employees.

THIS EVENT IS FREE AND OPEN TO THE PUBLIC. JOIN US.

ENGAGE FOR ACTION.

Feel the power of purpose in the ring, your school and your city.
